Executive Director

June 2020

Dear Generous Donor:
Mashadi Bikur Cholim

As Long Island begins to "re-open", it is with great encouragement that the hospital has seen a multi-week decline in COVID-19 related admissions. I am proud to share that as of May 2020, we have discharged over 1,600 patients who sought care here at North Shore University Hospital battling COVID-19. It is with full hearts that we offer our sincerest thank you because as we cared for our patients you cared for us. Your meaningful donation and act of kindness during these trying times have been a great source of strength.

The thoughtfulness that has been shown to North Shore University Hospital during these unprecedented times has been a true inspiration. As the saying goes, "it takes a village" and the continuous gratitude of our "village" has truly kept us supported. The outpouring of generosity from the community has not only been the motivation that has kept our team going; it has been the pause in the break room that has allowed our teams an opportunity to refuel and re-energize.

Please know how much your benevolence is appreciated. It is an honor to be a part of such an incredible community. On behalf of the entire team at North Shore University Hospital, we thank you and hope you stay well.

Thank you,

Jon Sendach, FACHE
Executive Director
